## ABOUT ME

Enthusiastic, creative and inquisitive game developer with an array of skills and experience. Current specialist areas include working with Unity, C#, C++ and Blender. Knowledge of Unreal using both blueprints and C++. Gained experience with 3D modelling, simulation, and sculpting outside of university, primarily using Blender with an emphasis on procedural node-based workflows. Diverse knowledge set including project management tools such as Trello, source control software such as GitHub, and several applications for image manipulation and video editing. Aspiring to learn more about the industry and become more capable in specialist areas of game development.

## EXPERIENCE

I have spent my whole life actively engaged in one game or software centric community or another, for example creating maps for C&C Generals, participating in game jams, or making mods for games such as Skyrim and Noita.

I have gained fantastic experience with teamwork and organisation, being a representative of my course for over a year as well as a student ambassador, where I participate in many events such as giving tours to prospective students on open days and mentoring sixth form students.

## TECHNICAL SKILLS

- Unity
- Unreal
- C#
- C++
- Blender
- GitHub
- Trello
- HTML
- CSS

## EDUCATION

### **BSc (Hons) Computer Games Programming Degree | University of Gloucestershire**

*2021-Present*

UBO – Worked as the project manager for a 2-4 player party game, developed in a team of 6 including students from different disciplines. The game was developed in Unity using industry standard systems for source control and task allocation (GitHub and Kanban boards) The team was invited to COMX for this project.

### **A Levels | Gordano School**

*2019-2021*

Cambridge Technical in IT – Distinction\*

Biology – B

Physics – D

### **GCSE | Gordano School**

*2014-2019*

I attained 9 GCSEs with an average grade of a 7 (A).
